Docket No. 98N-1265

Food and Drug Administration

Rockville, MD. 20857

I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS: I can not tolerate the basic manufactured female hormones. I have been able to take compounded medication - tuned to my body's needs without side effects. Without this medication I suffer from migraine headaches, dry skin, vaginal dryness, depression. Not to say exposing me to the risk of osteoporosis + heart attack. Please do not regulate or restrict this as it will change my life drastically if I can not obtain this much needed medication. Thank you for your time. C. Hardcastle
